Materials List

***All of this can be found at Jerry's Artarama and probably any other art store.

1: **Multimedia sketchbook: any size.** Multimedia so that you can experiment with different materials unless you have a specific preference.

2: **Drawing pencils, pencil sharpener, and eraser:** I usually have a white vinyl eraser and a very small eraser (something like a MONO Zero eraser pencil).

3: **Drawing pens (black and/or color if you'd like):** I recommend getting a set that has a variety of tips such as a Micron set with fine and brush tips. But you can also just buy an assortment of individual pens rather and see what you like. I like Stabilo brand if I'm trying to get a lot of colors on a budget.

4: **Recommended but not required:** Any other inks or watercolors you might want to use to make washes/paint with, markers or more brush pens. Make sure what you bring is portable and easy to set up.

*** I will bring some inks and different materials to try during the first class in case you want to experiment with any new materials or techniques.

***Please email me with any questions, and I will help you find what you need!
